

Lithium Battery UL 1642 Statement

Company Name: Power Sonic Corporation

Company Address: 365 Cabela Dr, Suite 300, Reno, NV 89439

Product Coverage: Lithium Batteries (PSLBT, PSLCP, PSLSC)

Compliance Statement

Based on test results and technical documentation, we confirm that the referenced lithium battery product(s) are:

- Manufactured under a quality system that ensures conformity to UL 1642.
- In compliance with all applicable safety requirements set forth in UL 1642.
- Suitable for distribution and use in accordance with relevant safety regulations.

UL 1642 Cell Declaration: Power Sonic Corporation hereby declares that all lithium iron phosphate battery products listed above are manufactured using lithium cells that are certified to UL 1642 "Standard for Safety Lithium Batteries" by their respective cell manufacturers.

Cell Certification Status: The lithium cells incorporated in Power Sonic battery assemblies have been independently tested and certified to UL 1642 requirements by qualified cell manufacturers. These certifications are held under the cell manufacturers' names and UL file numbers, not under Power Sonic Corporation.

Power Sonic Role: Power Sonic Corporation functions as the battery pack assembler, incorporating UL 1642 certified cells into complete battery systems. Power Sonic ensures that battery pack assembly processes maintain the integrity and safety characteristics of the underlying UL 1642 certified cells through proper design, assembly procedures, and quality control measures.

Cell Safety Compliance: All incorporated lithium cells meet UL 1642 safety requirements including protection against fire, explosion, and other hazardous conditions under both normal use and reasonably foreseeable misuse scenarios.

Regulatory Reference: This declaration confirms the use of cells certified to UL 1642 "Standard for Safety Lithium Batteries" Sixth Edition, dated September 29, 2020, as published by UL Standards & Engagement.
