

LVD 2014/35/EU, EMC 2014/30/EU, EN62040 Compliance Statement

Company Name: Power Sonic Corporation

Company Address: 365 Cabela Dr, Suite 300, Reno, NV 89439

Product Coverage: POWERSTEADY

Compliance Statement

Power-Sonic's POWERSTEADY UPS systems undergone comprehensive conformance testing and certification by an accredited testing laboratory certified under CNAS L2291.

EU Directive Compliance

The POWERSTEADY UPS product line demonstrates full conformance with the following European Union directives:

Low Voltage Directive (LVD) 2014/35/EU - Ensuring electrical safety and protection against hazards arising from the use of electrical equipment. Additional compliance includes the predecessor LVD Directive 2006/95/EC for continuity with earlier certification requirements.

Electromagnetic Compatibility (EMC) Directive 2014/30/EU - Guaranteeing electromagnetic compatibility and preventing interference with other electronic equipment. Additional compliance includes the predecessor EMC Directive 2004/108/EC for comprehensive certification coverage.

These certifications authorize the use of CE marking to demonstrate conformity with both EU directives.

International Standards Compliance

The POWERSTEADY UPS systems have been tested and certified to conform with the following international standards:

EN 62040-1:2008+A1:2013 - Safety requirements for uninterruptible power systems, covering protection against electric shock, fire hazards, and mechanical hazards.

EN 62040-2:2006 - Electromagnetic compatibility requirements for uninterruptible power systems, including emission limits and immunity requirements.

IEC/EN 62040-3:2011 - Method of specifying the performance and test requirements for uninterruptible power systems, including classification and performance criteria.
